Inge

Please find the attached comments.

Regarding the comment below, the Farm 5/399 has confirmed existing water rights and regarding the proposed water use the WULA is underway.

Regarding the dam safety, the proposed dam is subject to the Dam Safety Legislation and the application was lodged to the DWS.

Regards

Subject: RE: Dasberg Dam

Dear Vhengani

I am busy completing the Dasberg EIR. I received a comment from DEADP (2017-07-25) on the Post-Application Scoping report that requested the following:

“Comments must be obtained from the Breede Gouritz Catchment Management Agency. This must include a comment with regards to the additional water rights required and confirmation that there are no conflicts in terms of existing water rights, the proposed water use and its allocation. In addition, the comment should include preliminary input with regards to the dam safety aspects.”

I have received no comments from BGCMA thus far? Can you please comment give a comment on this? You will receive the EIR for comment once I received all specialist input and completed the report.

Kindest Regards

Inge

Good morning

As per telephonic conversation, I just want to let you know that the Dasberg Final Scoping Report will be sent via Drop box from our office manager, Belinda, just so you don't think its spam or anything.

Kind Regards
Inge
