

Description

This is the wind, wave and weather statistics for Calvina in Hartenbom Capo, South Africa. Windfinder specializes in wind, waves, tides and weather reports & forecasts for wind related sports like kitesurfing, windsurfing, surfing, sailing or paragliding.

The wind statistics are based on real observations from the weather station at Calvina. You can also order the raw wind and weather data on our historical weather data request (</contact/weatherdata.htm>) page (for example for an insurance case, to better plan your vacation etc.). The arrows point in the direction that the wind is blowing.

Check the wind statistics for Calvina when you want to find the best last minute travel destination for your kitesurfing, windsurfing or sailing vacation in South Africa.

Units: Our default units are knots and degrees Celsius. These are often used by sailors, kites, surfers, windsurfers or paragliders. You can change units on our [settings page](/settings) (</settings>).

Help: If you need more information about our wind statistics for Calvina, have a look at our [help section](/help/statistics) (</help/statistics>).
