Dear Loretta

I just want to refer to point 12 of your attached comment which refers to the One Environmental System. I am aware of the regulations which aims to align the EIA and WULA applications and we will pay strict attention to this in our future projects.

I am not sure how to deal with this for this project as the WULA application for Hut dam have been submitted in 2016. Please see the attached document. I am also in close communication with Vhengani Ligunu from BGCMA as she asks for my update comment and response reports regularly.

Can you please advise?

Kind Regards
Inge
