Dear Sir

COMMENT ON THE NOTICE OF INTENT TO SUBMIT AN APPLICATION IN TERMS OF THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED): THE PROPOSED DEVELOPMENT OF A 30M HIGH TELECOMMUNICATION MAST ON PORTION 108 OF FARM DOORNRIVIER NO. 369, AAN DE DOORNS.

1. Your document and letter dated 7 June 2018, as received by the Department on the same day, refer.
2. Following the review of the information submitted to this Department, the following is noted:
 - The proposal entails the development of a 30m high lattice mast on Portion 18 of Farm Doornrivier No. 369, Aan De Doorns.
 - The proposal will have a development footprint of 59m².
 - No indigenous vegetation is present on the site.
 - No watercourses are present on the site or within 32m of the site.
 - An existing wine cellar is present on the site which will provide existing access and power for the proposal.
 - The site is zoned for Agriculture and is located outside the urban area of De Doorns.

Process

3. Having considered the information contained in the Nol, the Department concurs that the proposed development constitutes a listed activity as defined in terms of the NEMA EIA Regulations, 2014 (as amended).
4. In light of the activity identified, you are herewith advised that a Basic Assessment process must be followed in order to apply for Environmental Authorisation. Only the activity applied for shall be

2nd Floor, 1 Dorp Street, Cape Town, 8001
Tel: +27 21 483 3679 Fax: +27 21 483 3633
Bernadette.Osborne@westerncape.gov.za

Private Bag X9086, Cape Town, 8000
www.westerncape.gov.za/eacdp

considered for environmental authorisation. The onus is on the applicant to ensure that all the applicable listed activities are applied for and assessed as part of the Basic Assessment process.

5. The Department reminds you that the "Request for a specific fee reference number" form must be completed and submitted to the Department prior to submission of the formal application for the abovementioned proposed development. Upon receipt of the specific fee reference number, it must be inserted into the Application Form and proof of payment of the applicable fee attached when the Application Form is submitted to the Department.
6. You are advised that when undertaking the Basic Assessment process, you must take into account all applicable guidelines, including the guidelines developed by the Department. These can be downloaded from the Department's website, (<http://eadp-westerncape.kznshf.gov.za/your-resource-library/policies-guidelines>). In particular, the guidelines that may be applicable to the proposed development include, inter alia, the following:
 - Circular EADP 0028/2014: One Environmental Management System.
 - Guideline for the Review of Specialist Input in the EIA process (June 2005).
 - Guideline for Environmental Management Plans (June 2005).
 - Guideline on Alternatives (March 2013).
 - Guideline on Need and Desirability (March 2013).
 - Guideline for involving visual and aesthetic specialists in EIA processes (June 2005).
7. Please ensure that the Basic Assessment Report ("BAR") and Environmental Management Programme ("EMPr") contain all the information requirements outlined in Appendices 1 and 4 respectively of GN No. 326.

Public Participation

8. A public participation process ("PPP") that meets the requirements of Regulation 41 of the EIA Regulations, 2014 (as amended) must be undertaken. You are advised that public participation may be undertaken prior to the submission of the application, although this is not mandatory. It is the Environmental Assessment Practitioner's discretion at what stage the requirements of Regulation 41 are met, whether during the proposed application (pre-application) process or formal application process. You are reminded that a period of at least 30 days must be provided to all potential or registered interested and affected parties to submit comment on the BAR.
9. Should a public participation process, which includes the circulation of the pre-application BAR for comment, be undertaken prior to submission of an Application Form to the Department, in terms of Regulation 40, the pre-application BAR may also be submitted to the Department for commenting purposes. Please ensure a minimum of two printed copies of the pre-application BAR is submitted to the Department for commenting purposes.
10. In terms of Section 24O (2) and (3) of NEMA and Regulations 7(2) and 43(2) of the EIA Regulations, 2014 (as amended), any State Department that administers a law relating to a matter affecting the environment relevant to the application must be requested to comment within 30 days. **Please note that the Environmental Assessment Practitioner ("EAP") is responsible for such consultation.** Therefore, it is requested that the EAP include proof of such notification to the relevant State Departments in terms of Section 24O (2) and (3) of NEMA in the BAR, where appropriate.
11. The Department awaits the submission of the Application Form and/or pre-application BAR prescribed by the EIA Regulations, 2014 (as amended). Please note that one printed copy and one electronic copy (saved on CD/DVD) of the Application Form must be submitted.
12. Please note that it is an offence in terms of Section 49A(1)(a) of the NEMA for a person to commence with a listed activity unless the Competent Authority has granted an Environmental Authorisation for undertaking it. Failure to comply with the requirements of Section 24F of the NEMA shall result in the matter being referred to the Environmental Compliance and

Enforcement Directorate of this Department. A person convicted of an offence in terms of the above is liable to a fine not exceeding R10 million or to imprisonment for a period not exceeding 10 years, or to both such fine and imprisonment.

13. Please note that the pre-application consultation is an advisory process and does not pre-empt the outcome of any future application which may be submitted to the Department.

No information provided, views expressed and/or comments made by officials during the pre-application consultation should in any way be seen as an indication or confirmation:

- that additional information or documents will not be requested
- of the outcome of the application

14. This Department reserves the right to revise or withdraw initial comments or request further information from you based on any new or revised information received.

Yours faithfully

Dear Philippa,

I hereby acknowledge receipt the attached comment dated 28 June 2018.

Your comment is duly noted.

I hereby confirm that the proposed site is in a transformed and degraded state due to past development activities on the property, with no natural vegetation present on the proposed site. An area of 59m² will be cleared for the mast. Also find attached some site photos, showing the current status of the site.

Please note that erosion control measures and alien vegetation clearing measures will be included in the Environmental Management Programme ("EMPr").

Kind regards,

Emile Esquire

By email: admin@enviroafrica.co.za

Dear Emile,

RE: Proposed construction of a 30m high telecommunications mast on portion 108 of farm Doorrivier No 369 Aan de Doorns

CapeNature would like to thank you for the opportunity to comment on the above application and wish to make the following comments:

1. The vegetation in this area is mapped as Breede Alluvium Renosterveld which is listed as Endangered according to the threatened ecosystem listing for the Western Cape. However it is noted that the specific site is already developed with number of large buildings and associated infrastructure including access roads. Please could you confirm the status and ground cover of the exact site of 59 square meters that is to be cleared for the mast.
2. The area is mapped as an Ecological Support Area (ESA) according to the Western Cape Biodiversity Spatial Plan of 2017. The desired management objective for ESAs is that they are maintained in functional near natural state and that while some habitat loss is acceptable the underlying ecological functioning should not be compromised. Given this, the management plan for the base station site and the access road must include erosion control measures and regular clearing of alien vegetation.

Please note that our comments only pertain to the biodiversity related impacts and not to the overall desirability of the proposed application. CapeNature reserves the right to revise initial comments and request further information based on any additional information that may be received.

Yours sincerely

Philippa Huntly
For: Manager (Scientific Services)

the 1990s, the number of people in the world who are undernourished has increased from 600 million to 800 million.

There are a number of reasons for this increase. One of the main reasons is the rapid population growth in the developing countries.

Another reason is the increasing demand for food and other resources as a result of the rapid economic growth in the developing countries.

A third reason is the increasing demand for food and other resources as a result of the rapid economic growth in the developed countries.

A fourth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the emerging economies.

A fifth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the transition economies.

A sixth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the industrialized countries.

A seventh reason is the increasing demand for food and other resources as a result of the rapid economic growth in the advanced economies.

An eighth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the high-income countries.

A ninth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the very high-income countries.

A tenth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the ultra-high-income countries.

A eleventh reason is the increasing demand for food and other resources as a result of the rapid economic growth in the super-high-income countries.

A twelfth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the hyper-high-income countries.

A thirteenth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the ultra-high-income countries.

A fourteenth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the super-high-income countries.

A fifteenth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the hyper-high-income countries.

A sixteenth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the ultra-high-income countries.

A seventeenth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the super-high-income countries.

A eighteenth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the hyper-high-income countries.

A nineteenth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the ultra-high-income countries.

A twentieth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the super-high-income countries.

A twenty-first reason is the increasing demand for food and other resources as a result of the rapid economic growth in the hyper-high-income countries.

A twenty-second reason is the increasing demand for food and other resources as a result of the rapid economic growth in the ultra-high-income countries.

A twenty-third reason is the increasing demand for food and other resources as a result of the rapid economic growth in the super-high-income countries.

A twenty-fourth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the hyper-high-income countries.

A twenty-fifth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the ultra-high-income countries.

A twenty-sixth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the super-high-income countries.

A twenty-seventh reason is the increasing demand for food and other resources as a result of the rapid economic growth in the hyper-high-income countries.

A twenty-eighth reason is the increasing demand for food and other resources as a result of the rapid economic growth in the ultra-high-income countries.

RESPONSE TO NOTIFICATION OF INTENT TO DEVELOP: FINAL
In terms of Section 38(2) of the National Heritage Resources Act (Act 25 of 1999) and the Western Cape
Provincial Gazette 6061, Notice 298 of 2003

NOTIFICATION OF INTENT TO DEVELOP: THE PROPOSED 25M TELECOMMUNICATIONS MAST ON, FARM 108 PORTION 369, BREEDE VALLEY, WORCESTER, SUBMITTED IN TERMS OF SECTION 38(1) OF THE NATIONAL HERITAGE RESOURCES ACT (ACT 25 OF 1999)

CASE NUMBER: 18081310KB0814E

The matter above has reference.

Heritage Western Cape is in receipt of your application for the above matter received on 14 August 2018. This matter was discussed at the Heritage Officers meeting held on 27 August 2018.

You are hereby notified that, since there is no reason to believe that the proposed 25m telecommunications mast on, Farm 108 Portion 369, Breede Valley, Worcester will not impact on heritage resources, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required.

However, should any heritage resources, including evidence of graves and human burials, archaeological material and paleontological material be discovered during the execution of the activities above, all works must be stopped immediately and Heritage Western Cape must be notified without delay.

This letter does not exonerate the applicant from obtaining any necessary approval from any other applicable statutory authority.

HWC reserves the right to request additional information as required.

Should you have any further queries, please contact the official above and quote the case number.

Yours faithfully

.....
