**NOTIFICATION
 OF
 INTENT
 TO
 DEVELOP**

Completion of this form is required by Heritage Western Cape for the initiation of all impact assessment processes under Section 38(1) & (8) of the National Heritage Resources Act (NHRA).

Whilst it is not a requirement, it may expedite processes and in particular avoid calls for additional information if certain of the information required in this form is provided by a heritage specialist/s with the necessary qualifications, skills and experience.

A. APPLICABILITY OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT (NEMA)

HWC Case Number:

DEADP Reference Number: Pending

NOTE: A DEADP (W Cape Dept. Environment Affairs & Development Planning) reference number must be included in all NHRA Section 38(8) processes where DEADP is the decision making authority under NEMA. The effect of this requirement is that the NEMA process must be initiated with DEADP prior to the NHRA process with HWC.

If a DEADP reference number is not entered above please check one of the following boxes:

This application is made in terms of Section 38(8) of the NHRA and an application under NEMA has been made to the following authority:

This development will not require a NEMA application.

NOTE: Making an incorrect statement or providing incorrect information in this part of the form may result in all or part of the application having to be reconsidered by HWC in the future, or submission of a new application.

DEVELOPMENT DETAILS:

Please indicate below which of the following Sections of the National Heritage Resources Act, or other legislation has triggered the need for notification of intent to develop.	
<input type="checkbox"/> S38(1)(a) Construction of a road, wall, powerline, pipeline, canal or other similar form of linear development or barrier over 300m in length.	S38(1)(c) Any development or activity that will change the character of a site - <input type="checkbox"/> (i) exceeding 5 000m ² in extent; <input type="checkbox"/> (ii) involving three or more existing erven or subdivisions thereof; <input type="checkbox"/> (iii) involving three or more erven or divisions thereof which have been consolidated within the past five years.
<input type="checkbox"/> S38(1)(b) Construction of a bridge or similar structure exceeding 50m in length.	
<input type="checkbox"/> S38(1)(d) Rezoning of a site exceeding 10 000m ² in extent.	
<input checked="" type="checkbox"/> Other triggers, eg: in terms of other legislation, (ie: National Environment Management Act, etc.) Please set out details: NEMA	If you have checked any of the three boxes above, describe how the proposed development will change the character of the site:

If an impact assessment process has also been / will be initiated in terms of other legislation please provide the following information:

Authority / government department (ie: consenting authority) to which information has been /will be submitted for final decision: **DEADP**

Present phase at which the process with that authority stands:

Provide a full description of the nature and extent of the proposed development or activity including its potential impacts (eg: changes in land use, envisaged timeframes, provision of additional bulk services, excavations, landscaping, total floor area, height of development, etc. etc.):

Proposed development of a 25m high telecommunications mast on Portion 19 of Farm Palmiet Rivier No. 319, Caledon Road, Grabouw, Western Cape (Site Name: Peregrine Farm Stall)

C. HERITAGE RESOURCES AND IMPACTS THEREUPON

Section 3 of the National Heritage Resources Act sets out the following categories of heritage resource as forming part of the national estate. Please indicate the known presence of any of these by checking the box alongside and then providing a description of each occurrence, including nature, location, size, type

Failure to provide sufficient detail or to anticipate the likely presence of heritage resources on the site may lead to a request for more detailed specialist information.

(The assistance of relevant heritage professionals is particularly relevant in completing this section.)

Provide a short history of the site and its environs (Include sources where available): **See attached Heritage Screening Assessment**

Please indicate which heritage resources exist on the site and in its environs, describe them and indicate the nature of any impact upon them:

Describe elements in the environs of the site that could be deemed to be heritage resources:

This application is for the establishment of a 25m high telecommunications mast on Portion 19 of Farm Palmiet Rivier No. 319, Caledon Road, Grabouw, Western Cape, located at the back of Peregrine Farm Stall. According to their website, Peregrine Farm Stall has been in existence since 1964, and previously it is likely that this area was used for agriculture, as farming is evident on the Cape Malmesbury Map (1880-1890: Figure 1d). As such, the area proposed for development has been extensively disturbed

through human occupation, agricultural practices and modern development interventions.

The area proposed for the telecommunications mast was assessed by Kaplan (2002 SAHRIS NID 7456) in his report on the proposed N2 Wineland Toll Highway Project. Kaplan noted that Later Stone Age (LAS) and Middle Stone Age (MSA) artefacts have been located in the upper catchment of the Palmiet River, and MSA artefacts have been located at the proposed Ikapa Quarry near Grabouw. Rock art has also been located near the Steenbras River Dam and alongside the Bot River near the old Houw Hoek railroad, however no archaeological artefacts or sites are known from the immediate vicinity of the proposed development.

Two sites of heritage significance were identified in the vicinity of the proposed development according to SAHRIS (Figure 3). The one, SAHRIS SID 29397, is a structure located in Grabouw that will not be impacted by the proposed development. The other, I believe, has been mapped incorrectly as it refers to the "Sarpine" shipwreck which is supposed to be located near Strand beach (SAHRIS Case ID 5140). As such, no known heritage resources will be impacted by the proposed development.

The area proposed for development is located within the Voorstehoek Formation which has very high palaeontological sensitivity according to the SAHRIS Palaeosensitivity Map. Other geological formations in close proximity to the development area include the Tra tra, Gydo and Bo Plaas Formations, also of very high palaeontological sensitivity (Figure 4), as they are part of the Ceres Subgroup. According to the SAHRIS Fossil Heritage Browser, this subgroup is known for its rich fossil invertebrate biotas which are more common in mudrock-dominated units (especially the Gydo and Voorstehoek Fms), with low diversity shelly coquinas in sandstones, while trace fossils are best preserved in heterolithic units (thin bedded sandstones and mudrocks). However, despite the very high palaeontological sensitivity, it is unlikely that any palaeontological heritage resources are likely to be recovered during the excavation process as the mast will be located in an already built up area, and the footprint of the proposed development is very small.

Based on the information available, it is very unlikely that the proposed development will impact on significant heritage resources.

Description of impacts on heritage resources in the environs of the site: **None**

Summary of anticipated impacts on heritage resources:

None

ILLUSTRATIVE MATERIAL (This form will not be processed unless the following are included):

Attach to this form a minimum A4 sized locality plan showing the boundaries of the area affected by the proposed development, its environs, property boundaries and a scale. The plan must be of a scale and size that is appropriate to creating a clear understanding of the development.

Attach also other relevant graphic material such as maps, site plans, satellite photographs and photographs of the site and the heritage resources on it and in its environs. These are essential to the processing of this notification.

Please provide all graphic material on paper of appropriate size and on CD ROM in JPEG format. It is essential that graphic material be annotated via titles on the photographs, map names and numbers, names of files and/or provision of a numbered list describing what is visible in each image.

D. RECOMMENDATION

In your opinion do you believe that a heritage impact assessment is required? Yes No

Recommendation made by:

Name **Jenna Lavin**

Capacity **Heritage Practitioner**

PLEASE NOTE: No Heritage Impact Assessment should be submitted with this form or conducted until Heritage Western Cape has expressed its opinion on the need for such and the nature thereof.

E. INFORMATION TO BE PROVIDED AND STUDIES TO BE CONDUCTED AS PART OF THE HERITAGE IMPACT ASSESSMENT (HIA)

If it is recommended that an HIA is required please complete this section of the form.
