COMMENTS: BASIC ASSESSMENT REPORT FOR PROPOSED DEVELOPMENT OF A NEW 30m HIGH TELECOMMUNICATION LATTICE MAST, FARM 161, BUFFELJAGSRIVIER, SWELLENDAM

The Basic Assessment Report dated 7 February 2019 with DEA reference no:16/3/3/6/6/7/1E3/14/1447/18 and subsequent reports in supporting of this development submitted on behalf of Atlas Towers (Pty) Ltd by EnviroAfrica (Pty) Ltd has reference.

The Breede-Gouritz Catchment Management Agency (BGCMA) has reviewed the information provided to the BGCMA. The BGCMA supports the proposed development with the following conditions:

- All relevant sections and regulations of the National Water Act, 1998 (Act 36 of 1998) regarding water use must be adhered to;
- All relevant sections and regulations of the National Environmental Management: Waste Act, 2008 (Act 59 of 2008) regarding the disposal of solid waste must be adhered to. Solid waste may only be disposed of onto an authorized solid waste facility in terms of abovementioned legislation;
- No permanent structures maybe constructed within the 100-year flood line of any watercourse (seasonal or permanent river, stream, etc.);
- A buffer area for the execution of a water use as contemplated in Sections 21 (c), (i) and (j) of the National Water Act, 1998 (Act 36 of 1998) must be applied to any wetland or any water resource within a distance of 500 meters upstream or downstream from the boundary of any wetland
- No permanent structures maybe constructed within the 50-year flood line of any watercourse (seasonal or permanent river, stream, etc.).
- No pollution of surface water or groundwater resources may occur due to any activity on the property;

- The minimizing of waste must be promoted and alternative methods for waste management must be investigated;
- The stockpiling of soil or any other materials shall not be allowed near a watercourse or water body to prevent pollution or impediment to surface runoff. The developer must control and establish suitable mitigation measures to prevent the erosion of the stockpiles;
- Chemical toilets facilities be used on-site during construction phase of project development to be used by construction workers such toilets facilities must be located outside of the 1:100 year floodline;

Please be advised that no activities may commence without the appropriate approvals/authorizations where needed from the responsible authority. The onus remains with the registered property owner to confirm adherence to any relevant legislation that such activities might trigger and/or need authorization.

This office reserves the right to amend and revise its comments as well as to request any further information.

Please do not hesitate to contact this office if you have any further queries. Please ensure to quote the above reference in doing so.

Yours faithfully,
