Hallo Dean

Our correspondence below has reference. I just want to follow up on this. (also left a message on your phone today). Can you get back to us on maybe providing support please. These guys just committed another R100 000 of their own funds during the AGM last week to clear aliens along the Breederiver (over and above what the individual farmers are already providing)....we must support them please to strengthen the partnership.

Greetings

That is fantastic Dean thank you for being willing to listen to their plea. You can contact the local Wolseley WUA representative, Ryno Pienaar (I have Cc'd him into this mail) – his no. is 0649031860. Much appreciated.  
Regards

Hi Dean, here is the technical report...the .kmz of the weir position to follow in a separate email.  
Any help would be appreciated...please.  
Greetings

Hi Rudolph

From what I recall, the “fish study” was an add on depending on the findings of a normal freshwater impact assessment. A freshwater study should still be conducted for the site. We unfortunately do not have the capacity to help every applicant and we can't make exceptions even for irrigation boards as this will set a precedent. However, I will chat to Jeanne and Dean and see what they have to say when we are all in the same place.

Regards,  
Alana

**Subject:** FW: NUWE UITKEER EN PYP IN WABOOMSRIVIER : Quote for fish study in the Snel river

Hi partners

The farmers are struggling to get around this required fish study and asked my help to intervene. I understand your request but is there any way that they could be accommodated since the river at the location of the weir is so degraded. Is it not possible for Jeanne or Dean to give your professional input and save this cost for the farmers so they could rather use this money to clear the aliens in the catchment.

My apologies for treading on areas that I have no specialist knowledge of but I had to ask. Most of these farmers are already struggling with the drought as it is and the wine industry is not in a healthy state. If there is any possibility you can assist it would be much appreciated.

Regards

Rudolph Röscher

MY BROER

My lede wil stuipe kry dat ons nou dalk 'n sak vol geld met betaal vir 'n visstudie op 'n dooie rivier omdat Cape Nature van Jonkershoek volgens Intaba glo dit vereis. Kan jy nie dalk die ding vir ons ontkom deur jou kontak met Cape Nature nie?

Beste Oom Douglas

Sien ook asb die aangehegte vis studie kwotasie vanaf Dr Bruce Paxton asook kommentaar vanaf Cape Nature wat aanbeveel dat n vis studie gedoen moet word.

Ek wil weet of ek vir Dr Paxton die 'go-ahead' kan gee sodat hy solank die studie kan gaan doen?

Groete  
Inge
