

A.	Impact Rating: Construction	Pre-	NO-GO ALTERNATIVE					WITHOUT MITIGATION(N/A)					WITH MITIGATION(N/A)				
			Probability	Extent	Duration	Magnitude	Receiving Environment	Without Mitigation Score (Baseline)	Probability	Extent	Duration	Magnitude	Receiving Environment	With Mitigation Score (Impact assessment)	Short Description of Mitigation Measures		
No.	ASPECT	IMPACT															
1	Botanical	Potential loss of Ceres Shale Renosterveld	-1	-1	-1	-1	-1	-1							The implementation of the no-go option would mean the status quo of the environment will remain the same. No mitigation measures recommended.		
		Loss of Ecological Support Areas (ESA)	-1	-1	-1	-1	-1	-1	-1						The implementation of the no-go option would mean the status quo of the environment will remain the same. No mitigation measures recommended.		
		Soil contamination from vehicles on site	-1	-1	-1	-1	-1	-1	-1						The implementation of the no-go option would mean the status quo of the environment will remain the same. No mitigation measures recommended.		
2	Water	Loss of riparian habitat	-1	-1	-1	-1	-1	-1	-1						The implementation of the no-go option would mean the status quo of the environment will remain the same. No mitigation measures recommended.		
		Alternation of hydrology/ flow of streams surrounding dam due to increase of the dam wall	-1	-1	-1	-1	-1	-1	-1	-1					The implementation of the no-go option would mean the status quo of the environment will remain the same. No mitigation measures recommended.		
3	Heritage	Loss of archaeological/ palaeological resources	-1	-1	-1	-1	-1	-1	-1						The implementation of the no-go option would mean the status quo of the environment will remain the same. No mitigation measures recommended.		
4	Dust	Potential dust from ground clearing and topsoil removal	-1	-1	-1	-1	-1	-1	-1						The implementation of the no-go option would mean the status quo of the environment will remain the same. No mitigation measures recommended.		
5	Visual		-1	-1	-1	-1	-1	-1	-1						The implementation of the no-go option would mean the status quo of the environment will remain the same. No mitigation measures recommended.		
6	Noise		-1	-1	-1	-1	-1	-1	-1						The implementation of the no-go option would mean the status quo of the environment will remain the same. No mitigation measures recommended.
