B. HERITAGE RESOURCES AND IMPACTS THEREUPON

Section 3 of the National Heritage Resources Act sets out the following categories of heritage resource as forming part of the national estate. Please indicate the known presence of any of these by checking the box alongside and then providing a description of each occurrence, including nature, location, size, type

Failure to provide sufficient detail or to anticipate the likely presence of heritage resources on the site may lead to a request for more detailed specialist information.

(The assistance of relevant heritage professionals is particularly relevant in completing this section.)

Provide a short history of the site and its environs (Include sources where available): The site was Crown Land and formed part of the extensive Stellenbosch Commonage in the nineteenth century, being leased out to farmers since the twentieth century including vegetable and fruit farming, vineyards and

Provide a short history of the site and its environs (Include sources where available): The site was a registered outspan in the 19th century and is well known and highly regarded by locals according to the Stellenbosch Municipal Inventory (2018). It is currently a gum plantation, rather burnt out and probably became one in the mid twentieth century when many outspans became defunct after WWII. The surrounding area is agricultural with Elsenburg to the east and various vineyards in the area. The landscape is one of mixed pasture, vineyards and some agro-industry/biotech. Please indicate which heritage resources exist on the site and in its environs, describe them and indicate the nature of any impact upon them: Places, buildings, structures and equipment of cultural significance Description of resource: The SW corner has been identified as the outspan site in the Stellenbosch Heritage Inventory (2018). The entire area could have been outspanned and grazed \boxtimes on but sites nearest the river and road would have been most popular. Description of impact on heritage resource: No development is proposed on this corner or boundary. Places to which oral traditions are attached or which are associated with living heritage \boxtimes Description of resource: Outspan site still regarded highly by locals. Description of impact on heritage resource: Could be positive especially if appropriately landscaped and signed for interpretation. Historical settlements and townscapes Description of resource: Description of impact on heritage resource: Landscapes and natural features of cultural significance Description of resource: The area forms part of the Stellenbosch Winelands albeit to the NW periphery; it was ranked as IIIb in the Stellenbosch Heritage Inventory (2018) lying in the Krom \boxtimes River Vlakte within the wider Joostenberg Vlakte. Description of impact on heritage resource: Potentially positive as landscape has been integrated into the proposal by OvP in their Concept Plan (2018). The land is currently rather degraded being burnt out gum plantation. Geological resources of scientific or cultural importance Description of resource: Description of impact on heritage resource: Archaeological resources (Including archaeological sites and material, rock art, battlefields & wrecks): Description of resource: Description of impact on heritage resource: Palaeontological resources (ie: fossils): Description of resource: Description of impact on heritage resource: **Graves and burial grounds** (eg: ancestral graves, graves of victims of conflict, historical graves & cemeteries): Description of Resource: Description of Impact on Heritage Resource: Other human remains: Description of resource: Description of impact on heritage resource:
