Subject: Re: Pre-Application Scoping Report for comment _Toeka dam
Attachments: image001.png

Hello Inge, I can find no mention of how these dams will impact the flow patterns of the Doring River and how the will fit in with the existing enviromental flow requirements for the Doring River. Can we please have a map of the entire catchment so we can see the how the dams relate to the rest of the catchment and extent of the impact on the whole system not just the small area that the dams cover. Thank you
A R Mitchell
