23/07/2018	<p>Dear Sir / Madam</p> <p>I have not personally received any notification of the above proposal. I was only informed of this proposal yesterday by a friend and feel that the deadline date of 23 July 2018 to register should be extended for all residents in the area as no notices were published in the local newspapers, social or radio media, post, etc. A notice, (2 x A3), indicating this proposal was found on the ground in the south west corner of the 8th Ave Park, over the past weekend. (Most likely blown off a pole by recent strong winds). We have Whatsapp group chats in each Avenue and only a handful of residents in 8th and Park Avenues were informed. The proposed demarcated area for the mast and other infrastructure must not be in the park or adjacent to it for the following reasons:</p> <ol style="list-style-type: none"> 1. This is the only area where our children can play safely on the swings, seesaw, slide etc, soccer, cricket and other games at the rear. 2. Radiation transmitted by equipment on the mast will affect everyone making use of the park and surrounding residents. <p>I here hereby register as an interested and affected party by providing my details below and will submit any additional information if necessary.</p> <p>NAME: Michael Francke ADDRESS: 19 - 6th Avenue, Rondebosch East,7780 CONTACT NUMBER: 021 697 2150 / 081 364 9198 EMAIL: mikefrancke77@gmail.com PREFERRED METHOD OF COMMUNUCATION: Per email</p>	Michael Francke	Telecommunications Mast	<p>Dear Michael,</p> <p>Your comment is noted.</p> <p>Please be advised that your name will be placed on the list of registered Interested and Affected Parties ("I&APs").</p> <p>Kind regards</p>	EnviroAfrica

03/08/2018	<p>Hi Emile</p> <p>When is the closing date for comments ?</p> <p>You only had a closing date for registration listed....but not for comments.</p> <p>I am not averse to the tower just the position of it in the park.</p> <p>The park is quite small and have limited space for free play....the only space kids have is the back of the park between the park furniture and the M5 fence.</p> <p>Outside the park, no problem....but inside the park is certainly not acceptable.</p>	Roekeya Bardien	Telecommunications Mast	<p>Dear Roekeya,</p> <p>Please note that the initial public participation within which to register as an Interested and Affected Party ("I&AP") ended on 23 July 2018.</p> <p>Furthermore, the Basic Assessment Report ("BAR") will go out for public comment in due course.</p> <p>Your comment is noted.</p> <p>Kind regards</p>	EnviroAfrica
06/08/2018	<p>CapeNature would like to thank you for the opportunity to comment on the proposed development and would like to make the following comments. Please note that our comments only pertain to the biodiversity related impacts and not to the overall desirability of the proposed development.</p> <p>The property on which the development is proposed is classified as No Natural according to the Biodiversity Network for the City of Cape Town and the Western Cape Biodiversity Spatial Plan. The Google Earth imagery indicates that the site is within an urban area and the natural vegetation has been lost. No terrestrial ecological specialist studies are considered necessary, however further verification is required that no natural vegetation will be affected.</p> <p>The Kromboom Canal is located on the western side of the M5, however based on the locality map the mast is proposed on the eastern side. It is not considered necessary to conduct a freshwater specialist study, provided that further verification is given that no wetlands will be affected.</p> <p>CapeNature will comment in more detail on the Draft Basic Assessment Report, however we are unlikely to object to this application.</p> <p>CapeNature reserves the right to revise initial comments and request further information based on any additional information that may be received.</p> <p>Yours sincerely</p>	CapeNature	Telecommunications Mast	<p>Dear Rhett,</p> <p>Your correspondence dated 06 August 2018, refers.</p> <p>Please note that your comment is duly noted.</p> <p>The site is completely transformed from its natural state due past activities on the property. I was on site on 12 June 2018 and observed how transformed the site currently is.</p> <p>Your comment is duly noted, and please note that a copy of the Basic Assessment Report will be provided to you for comment in due course.</p> <p>Kind regards,</p>	EnviroAfrica
