Good day

It is noted that a Land Use Application will need to be submitted. This will be done after the obtainment of the Environmental Authorisation.

George Municipality is included in the environmental assessment process to provide comment on the proposed mast location as well as the proposed mast type and height. Participation from the municipality in the early stages of the application should therefore aid the land use application.

The municipality will be notified of the availability of the Post-Application BAR for comment.

Kind regards
Inge
