NEED AND DESIRABILITY OF FORMALISATION OF PLANGENI AND GAMAKOR

The Kai !Garib Municipality want to take the oppurtunity to thank Barzani Development for the guidance and assistance with the Gamakor 1500 erven and Plangeni 500 erven projects.

These two communities are in dire need of formalisation and assistance which was also highlighted in the Needs and Desirability reports from Macroplan. The projects handled by Macroplan currently will assist the Municipality in addressing the extreme housing backlog in die Kai !Garib Municipal area and is of the utmost importance. It can also be stated that although the Municipality appreciates the appointment of Macroplan to assist in addressing these communities, there are many more such communities in dire need of formalisation and the provision of vacant erven. Any assistance from your side and guidance in this process will be absolutely wonderful and greatly appreciated. If possible, please let Macroplan provide you with more detail on other projects that will also assist in the addressing of the backlog.

Yours faithfully

DOCTOR J MACKAY
ACTING MUNICIPAL MANAGER
