penalties must be recorded and documented by the ECO (in accordance with the EMP).					
24. FIXED POINT PHOTO	4	Photos t	aken by ECO. Availab	le on request	

## **ECO COMMENTS**

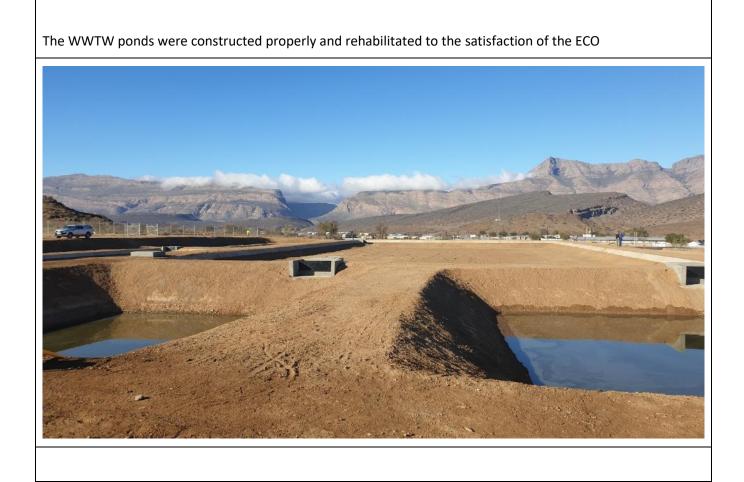

Site was overall rehabilitated satisfactory and to the ECO instructions. Site was left in a good and clean state.

Sludge drying pond: Sludge to be removed by Municipality to the Municipal waste disposal site when it is completely dried.

The pond for the reed bed could not be planted as there is not sufficient water at this stage for the survival of the reeds. This will take place once the water reaches the final pond.
