Subject: RE: Styrkraal Agricultural Development

Good morning Mr. Mader

Thanks for your prompt response. Actually, I'm surprised that a NEMA application is required for a farming project.

1. The application for a prospecting right by DFM Exploration (Pty) Ltd is on a portion of the Remainder of Styrkraal (Portion 0), as outlined in the image to follow this. A portion of Oup Vlake is also included in the application.
2.
 - 2.a: D.M. le Roux representing DFM Exploration (Pty) Ltd and Gemini Mining and Exploration (Pty) Ltd
 - 2.b,c and d: P.O. Box 121, Pofadder, 8890
 - 2.e: 083-572 1213
 - 2.f: By e-mail please

Kind Regards

D.M. le Roux

Subject: RE: Styrkraal Agricultural Development

Good evening Mr le Roux,

I hope all is well.

With regards to some background on the proposed development, the proposed Styr-Kraal Agricultural Development, and associated infrastructure, is located on Remaining Extent of Portion 0 of Farm Styr-Kraal, Farm No. 81, Pofadder, Khâi-Ma Local Municipality, Namakwa District Municipality (located at the following co-ordinates: 28°40'39.90"S; 19°31'2.93"E). In total, the entire development will be more than 200ha in extent.

Below, please find responses to your email.

1. Please note that we are still in the initial public participation process, whereby the surrounding landowners are in the process of being contacted and notified. In line with the public participation process, we have published an advertisement in the local newspaper, placed posters around the site, and carried out mail drops.

Please may you kindly advise on which Portion of Farm Styr-Kraal Farm No. 81 you have a prospecting right for.

2. Please be advised that you have been registered as an Interested and Affected Party (I&AP). Please note that due to the nature of this project, this application will follow a Scoping and Environmental Impact Report (S&EIR) Process. You will be provided with the opportunity to comment on the Draft Scoping Report as well as the Draft EIR, which will be made available to you in due course. As part of the registration process, please may you kindly provide us with the following information:
 - a. Affiliation:
 - b. Postal Address:
 - c. Town/City:
 - d. Code:
 - e. Telephone Number:
 - f. Preferred method of contact
3. Attached, please find the initial notification letter with more information. Please note that financial procurement for the project will be addressed in the Scoping and EIR reports.

Please do not hesitate to contact us should you have any questions.

Best Regards,

Anthony Mader

Subject: Styrkraal Agricultural Development

Sir

1. I object to not being directly consulted as an affected person as representative of DFM Exploration (Pty) Ltd, an applicant for a prospecting right on Styrkraal 81, as well as for Gemini Mining and Exploration (Pty) Ltd, the holder of a prospecting right on the adjacent farm, Oup 80. Mr. Apollis of Schamboua Trust are perfectly well aware of this, and has my contact details. If I didn't by chance see a poster of the proposed development at KLK in Pofadder, I would have remained in the dark. This is the only poster in Pofadder. I do not regularly visit this farmers cooperation.
2. Please register me as an affected person.
3. Please provide details of the proposed agricultural development, including the financial procurement.

Thanks in anticipation!

Kind regards

D.M. le Roux

EXTERNAL EMAIL: This email originated outside of "DALRRD/DAFF Environment". CAUTION: Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Dear Interested and Affected Party,

Notice is hereby given of the intention to submit a NEMA application and the public participation process, in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended ("NEMA"), Environmental Impact Assessment Regulations 2014, as well as a Water Use License Application in terms of the National Water Act (Act 36 of 1998) (NWA). The proposed agricultural development includes activities listed in terms of the NEMA EIA Regulations 2014.

EnviroAfrica cc has been appointed by Schamboua Trust to undertake the NEMA application process for Environmental Authorisation.

Application for environmental authorization to undertake the following activities in terms of NEMA EIA Regulations 2014:

Government Notice R327 (Listing Notice 1): Activity No. **4, 5, 8, 9, 10, 11, 12, 13, 14, 19, 24, 26, 31, 45, and 56**

Government Notice R325 (Listing Notice 2): Activity No. **13, 15, and 16**

Government Notice R324 (Listing Notice 3): Activity No. **4, 12, 14, 18, 23**

Application in terms of NWA: **Sections 21 (a), (b), (c), (d) and (i).**

*Please note that the listed activities above may change during the course of the NEMA Application process. Registered I&APs will be notified of any changes.

Public Participation:

Interested and Affected Parties (I&APs) are hereby notified of the application and invited to register (in writing) and/or provide initial comments and identify any issues, concerns or opportunities relating to this project to the contact details provided below, in terms of the **environmental aspects (NEMA Application) on or before the 8th February 2021** and for **water related issues (WULA Application) on or before the 12th March 2021**. Please note that the advertisement was published in the Gemsbok on the 11th November 2020. In order to register or submit comment, I&APs should refer to the project name, and provide their name, address & contact details (indicating your preferred method of notification) and an indication of any direct business, financial, personal, or other interest which they have in the application. You are also requested to pass this information to any person you feel should be notified.

Please note that only Registered I&APs:

- will be sent future correspondence and be notified of the availability of reports and other written submissions made (or to be made) to the Department by the applicant, and be entitled to comment on these reports and submissions;
- will be notified of the outcome of the application, the reasons for the decision, and that an appeal may be lodged against a decision; and
- will be notified of the applicant's intention to appeal the decision, and where and for what period the appeal submission will be available for inspection.

Attached, please find initial notification letter with site plan of the proposed Agricultural Development and Project Description.

Please do not hesitate to contact us should you have any questions.

Good morning,

Please note that all development applications are processed via our online portal, the South African Heritage Resources Information System (SAHRIS) found at the following link: <http://sahra.org.za/sahris/>. We do not accept emailed, posted, hardcopy, faxed, website links or DropBox links as official submissions.

Please create an application on SAHRIS and upload all documents pertaining to the Environmental Authorisation Application Process. As per section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA), an assessment of heritage resources must form part of the process and the assessment must comply with section 38(3) of the NHRA.

Once all documents including all appendices are uploaded to the case application, please ensure that the status of the case is changed from DRAFT to SUBMITTED. Please ensure that all documents produced as part of the EA Amendment process are submitted as part of the application.

Subject: RE: invoice details for Styrekraal

Good afternoon Simone,

I hope all is well.

We are currently in the stage of preparing the Application Form and Draft Scoping Report for submission to the competent authority [Department of Environment and Nature Conservation (DENC)] and Registered Interested and Affected Parties (I&APs) for their comment. We have received the Final Layout (revised map including existing and proposed development) which we are incorporating into the Draft Scoping Report and are awaiting design drawings for the pumpstation. Some of the appendices need to be amended to include the newly demarcated areas as per the Final Layout (as maps and previously prepared appendices were based on the initial map received).

Going Forward:

Once the Application and Draft Scoping Report have been completed, the Draft Scoping Report will be made available to Registered I&APs for a legislated 30-day comment period. Once the 30-day comment period has ended, the Final Scoping Report will be prepared and submitted to the DENC for acceptance / acceptance on condition(s). The DENC then have a legislated 43-day timeframe to accept the Final Scoping Report. Comments received from any I&AP will be incorporated into the Final Scoping Report and addressed during the following stage of the environmental process (please see below).

Once the Final Scoping Report has been accepted / accepted on condition, the Draft Environmental Impact Report (EIR) will be submitted to the DENC. This report will detail the findings of the specialist studies, include assessments of identified potential impacts, and address any comments raised by the DENC and/or Registered I&APs during the previous Scoping Phases. The Draft EIR will be made available to Registered I&APs for a legislated 30-day comment period.

Once this comment period has ended, the Final EIR will be prepared for submission. The Final EIR addresses any comments raised by the DENC and/or Registered I&APs on the Draft EIR and any amendments which need to be made to the EIR based on comments received. The Final EIR will then be submitted to the DENC for their final decision (approval / refusal of Environmental Authorisation) where the DENC have a legislated timeframe of 107 days to make their final decision.

As outlined above, the submission timeframes of any report depend on the number and type of comments raised by the DENC and/or Registered I&APs, as well as the depth of response required. Another factor influencing the submission time frame of the reports are the time taken for the DENC to respond (accept / approve) to the submitted forms, especially at the Final Scoping Stage where the Final Scoping Report must be accepted by the DENC prior to continuing with the Draft EIR stage.

We will however be preparing the next report during the commenting period of the previously submitted report (i.e., prepare the draft EIR once the Final Scoping Report has been submitted) to expedite the process wherever possible.

Please do not hesitate to contact us should you require any clarity on the above or have any further questions.

Best Regards,

Anthony Mader

Hi Simone.

We invoice at completion of each phase per the quote (only after that phase is completed). Milestones for these phases are normally in the form of a report (Draft Scoping report/final scoping report/ project application / Draft Impact report / Final Impact report / Environmental authorization) These documents will be available on our website or via drop box.

The last phase will only be invoiced once the project is completed and on receipt of a decision from the competent authority.

Please contact me if you need to discuss

Kind regards

Hi Anthony

This is the info

- a. Name: Sabina Maria Pasella
- b. Affiliation: Onseepkans resident
- c. Postal Address: PO Box 59
- d. Town/City: Onseepkans
- e. Code: 8892
- f. Preferred method of contact (e.g. email): ria.pasella33@gmail.com

I really need to explain the following to you

Onseepkans do not have any access to social media, internet facilities and media.

You mentioned that you advertise in the local newspaper, what local newspaper?

Die Gembok is printed and situated in Upington and they delivering only in Springbok, Pofadder and local surrounding towns, except Onseepkans.

You might thought that I exaggerating, but you can ask the relevant leadership and ward counsellor.

The second Local newspaper is in Springbok, Namakwander. Even that little newspaper doesnt reach Onseepkans.

If you say the advert was put up around the site, Onseepkans is 29 kms from Styerkraal. How difficult could that be to put it up in Onseepkans?

Like I said, Pofadder residents are not interested in Styerkraal and its development. The only people that are negatively effected are our people from Onseepkans.

Thank you once again for your response

Cc: <info@enviroafrica.co.za>

Good evening Ria,

I hope all is well.

Thank you for your feedback and response regarding the aforementioned project.

Please note that we were not involved in the acquisition of the property. We are involved in the undertaking of the Environmental Impact Assessment (EIA) with regards to the proposed development (which includes the public participation process) in accordance with the National Environmental Management Act (NEMA).

Attached, please find the initial notification letter outlining the proposed project. In line with the public participation process, we have published an advertisement in the local newspaper, placed posters around the site, and carried out mail drops. Details of the public participation will be included in the reports which are made available to registered Interested and Affected Parties (I&APs) and the Department of Environment: Nature Conservation (DENC) for comment.

Please be advised that you have been registered as an Interested and Affected Party (I&AP). Please note that due to the nature of this project, this application will likely follow a Scoping and Environmental Impact Report (S&EIR) Process. You will be provided with the opportunity to provide comment on the Draft Scoping Report as well as the Draft Environmental Impact Report (Draft EIR), which will be made available to you in due course. Please let me know if you would like more information on this process.

As part of the registration process, please may you kindly provide us with the following information:

- a. Name:
- b. Affiliation:
- c. Postal Address:
- d. Town/City:

- e. Code:
- f. Preferred method of contact (e.g. email):

Please do not hesitate to contact me should you require any further information.

I trust you are well.

It is with great disappointment to see an advertisement with regard to abovementioned Farm.

We the residents of Onseepkans were never aware or informed about the selling of the property in the first place. During the selling process no public participation were done in Onseepkans.

We the residents of Onseepkans has been severely disadvantaged as some of our people were born there. They were not given the opportunity to participate in the process of buying the property.

On the other hand, the advert for development has been placed up in Pofadder and not in Onseepkans. People from Pofadder will surely not lay any complaints because they donot have any interest in the property.

The concerned people are those from Onseepkans a d not Pofadder.

It is by chance that we saw the advert only today when we went for business in Pofadder.

We would really like to be part of the process and not being left out.

The concerned people are those from Onseepkans and not Pofadder.

It is by chance that we saw the advert only today when we went for business in Pofadder.

We would really like to be part of the process and not being left out.

My contact details are as follows

0632528303

Thank you

Sir

1. I object to not being directly consulted as an affected person as representative of DFM Exploration (Pty) Ltd, an applicant for a prospecting right on Styrkraal 81, as well as for Gemini Mining and Exploration (Pty) Ltd, the holder of a prospecting right on the adjacent farm, Oup 80. Mr. Apollis of Schamboua Trust are perfectly well aware of this, and has my contact details. If I didn't by chance see a poster of the proposed development at KLK in Pofadder, I would have remained in the dark. This is the only poster in Pofadder. I do not regularly visit this farmers cooperation.
2. Please register me as an affected person.
3. Please provide details of the proposed agricultural development, including the financial procurement.

Thanks in anticipation!

Kind regards

D.M. le Roux

Good morning Mr. Mader

Thanks for your prompt response. Actually, I'm surprised that a NEMA application is required for a farming project.

1. The application for a prospecting right by DFM Exploration (Pty) Ltd is on a portion of the Remainder of Styrkraal (Portion 0), as outlined in the image to follow this. A portion of Oup Vlake is also included in the application.
2.

Subject: RE: Styrkraal Agricultural Development

Good evening Mr le Roux,

I hope all is well.

With regards to some background on the proposed development, the proposed Styr-Kraal Agricultural Development, and associated infrastructure, is located on Remaining Extent of Portion 0 of Farm Styr-Kraal, Farm No. 81, Pofadder, Khâi-Ma Local Municipality, Namakwa District Municipality (located at the following co-ordinates: 28°40'39.90"S; 19°31'2.93"E). In total, the entire development will be more than 200ha in extent.

Below, please find responses to your email.

1. Please note that we are still in the initial public participation process, whereby the surrounding landowners are in the process of being contacted and notified. In line with the public participation process, we have published an advertisement in the local newspaper, placed posters around the site, and carried out mail drops.

Please may you kindly advise on which Portion of Farm Styr-Kraal Farm No. 81 you have a prospecting right for.

2. Please be advised that you have been registered as an Interested and Affected Party (I&AP). Please note that due to the nature of this project, this application will follow a Scoping and Environmental Impact Report (S&EIR) Process. You will be provided with the opportunity to comment on the Draft Scoping Report as well as the Draft EIR, which will be made available to you

in due course. As part of the registration process, please may you kindly provide us with the following information:

- a. Affiliation:
- b. Postal Address:
- c. Town/City:
- d. Code:
- e. Telephone Number:
- f. Preferred method of contact

3. Attached, please find the initial notification letter with more information. Please note that financial procurement for the project will be addressed in the Scoping and EIR reports.

Please do not hesitate to contact us should you have any questions.

Best Regards,

Anthony Mader

Subject: Styr-Kraal Agricultural Development_ Status Report

Good morning Mr Gerber,

I hope all is well.

Below, please find the status report and way forward regarding the Styr-Kraal Agricultural Development:

To date, the following has been completed:

- 1. Initial Public Participation has been conducted. This includes;**
 - a. Proposed development has been advertised in the Gemsbok Newspaper;

- b. Surrounding landowners have been notified;
- c. Posters were placed at and around the site, the nearest town, and at the municipal offices;
- d. Initial Notification Letters have been sent to state departments and potential Interested and Affected Parties (I&APs);
- e. An I&AP register was opened and was available to potential I&APs for registration.

2. Site visit

- a. A site visit was conducted by the EAP to verify site conditions, identify any potential environmental impacts, verify potential environmental impacts identified during the desktop study, and photograph the site conditions;
- b. This site visit was also conducted to verify site sensitivity ratings of various themes outlined in the DEA Screening Tool and for the compilation of the Site Sensitivity Verification (SSV) Report. The DEA Screening Tool and SSV Report have been prepared for submission with the Application Form and Draft Scoping Report.

3. All specialists have conducted their site visits. Specialist studies include;

- a. Botanical Impact Assessment;
- b. Freshwater Impact Assessment; and
- c. Heritage Impact Assessment.

To date, we have received the Freshwater Impact Assessment Report and the Heritage Impact Assessment. We are awaiting the Botanical Impact Assessment which is expected shortly.

4. The Application Form and Draft Scoping Report has been prepared for submission to the Department of Environment and Nature Conservation (DENC).

Please note that we are in constant communication with the applicant regarding information required for the completion of the Application Form and Draft Scoping Report. Once received, the Application Form and Draft Scoping Report will be submitted to the DENC.

Way Forward:

1. Once requested information has been received, the Application Form and Draft Scoping Report will be submitted to the DENC. All registered I&APs will be notified of the availability of the Draft Scoping Report for comment. I&APs will have a 30-day period to comment on this report;
2. Once the 30-day comment period has ended, the Final Scoping Report and Plan of Study will be prepared and submitted to the DENC for acceptance / acceptance with conditions. The DENC have a legislated 43-day period to accept / approve this Final Scoping Report and Plan of Study. All comments received on the Draft Scoping Report will be incorporated into the Final Scoping Report (in the form of a Comments and Responses Report) and addressed during the Environmental Impact Report (EIR) phase.
3. The Draft EIR will be prepared and submitted to the DENC subject to the acceptance / approval of the Final Scoping Report (*please refer to item 2 above*). The Draft EIR will include and address all comments received on the Draft Scoping Report. The Draft EIR will be made available to the registered I&APs for comment (30-day comment period);
4. Once the Draft EIR 30-day comment period is completed, the Final EIR will be prepared for submission to the DENC for approval / rejection of the Environmental Authorisation. All comments raised on the Draft EIR will be incorporated and addressed in the Final EIR. The DENC will have a legislated 107-day period to make their final decision on this application.

Please do not hesitate to contact me should you have any questions or need any clarification on the above.

Best Regards,

Anthony Mader

Appendix 3C

Proof of advertising in newspaper

APPENDIX 1A – PROOF OF NEWSPAPER ADVERT

SCHAMBOUA TRUST

ENVIROAFRICA CC

NEMA PUBLIC PARTICIPATION PROCESS

PROPOSED STYR-KRAAL AGRICULTURAL DEVELOPMENT ON THE REMAINING EXTENT OF PORTION 0 OF FARM STYR-KRAAL, FARM NO. 81, POFADDER, KHAI-MA LOCAL MUNICIPALITY, NAMAKWA DISTRICT MUNICIPALITY

Notice is hereby given of the intention to submit a NEMA application and the public participation process, in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended ("NEMA"), Environmental Impact Assessment Regulations 2014, as well as a Water Use License Application in terms of the National Water Act (Act 36 of 1998) (NWA). The proposed agricultural development includes activities listed in terms of the NEMA EIA Regulations 2014. EnviroAfrica cc has been appointed by Schambou Trust to undertake the NEMA application process for Environmental Authorisation.

The water use license application process under the NWA, will be undertaken by a separate independent consultancy, WATSAN Africa, working in conjunction with EnviroAfrica.

Application for environmental authorization to undertake the following activities in terms of NEMA EIA Regulations 2014:

Government Notice R327 (Listing Notice 1): Activity No. 4, 5, 8, 9, 10, 11, 12, 13, 14, 19, 24, 26, 31, 45, and 56

Government Notice R325 (Listing Notice 2): Activity No. 13, 15, and 16

Government Notice R324 (Listing Notice 3): Activity No. 4, 12, 14, 18, and 23

A WULA Application in terms of Section 21(a), (b), (c), (d), and (i) of the National Water Act (Act No. 36 of 1998).

**Please note that the listed activities above may change during the course of the NEMA Application process. Registered I&APs will be notified of any changes.*

Project Description & Location:

This application is for the proposed development of the Styr-Kraal Agricultural Development, and associated infrastructure, on Remaining Extent of Portion 0 of Farm Styr-Kraal, Farm No. 81, Pofadder, Khai-Ma Local Municipality, Namakwa District Municipality. In total, the entire development will be more than 200ha in extent. The site is located approximately 51km north of Pofadder at the following co-ordinates: 28°40'39.90"S; 19°31'2.93"E.

Public Participation:

Interested and Affected Parties (I&APs) are hereby notified of the application and invited to register (in writing) and/or provide initial comments and identify any issues, concerns or opportunities relating to this project to the contact details provided below, on or before 2nd February 2021. In order to register or submit comment, I&APs should refer to the project name, and provide their name, address & contact details (*indicating your preferred method of notification*) and an indication of any direct business, financial, personal, or other interest which they have in the application. You are also requested to pass this information to any person you feel should be notified. Please note that future correspondence will only be sent to registered Interested and Affected Parties.

LUR besoek gemeenskapsgeondheid sentrums

GEMSBOK-POFADDER: Die Noord-Kaapse LUR vir gesondheid, mr. Marné van Lier, het verlede week 'n omvangryke besoek aan Pofadder Gemeenskapsgeondheidsentrum (CHC) in Pofadder geleë.

Die LUR is vergeet deur burgemeester van die plaaslike munisipaliteit, Khosi Mole, met Ruanne Croux en Luanne van der Merwe van die provinsiale departement van gesondheid.

Haar besoek was deel van 'n reeks van besoeke van LUR van Lier se kant af om te monitor en te verskaf, veral in die tyd van COVID-19, die beskikbaarheid van mediese toerusting, mediese personeel en die kwaliteit van die dienste wat aan die gemeenskap gegee word.

Die LUR het ook metgetyde besoeke aan die Kameel-distribusie sentrum in Kameel CHC in die ZF Mgcawu-distrik, geleë.

LUR Marné van Lier met die bestuurders van die Kameel-distribusie sentrum.

LUR Marné van Lier met 'n pasiënt van die Kameel-distribusie sentrum.

LUR Marné van Lier met die bestuurders van die Kameel-distribusie sentrum.

Titelaktes in Namakwa oorhandig

BOHANNADOU TRUST **ENVIROAFRICA CC**

NEMA PUBLIC PARTICIPATION PROCESS

PROPOSED STYR-KRANS AGRICULTURAL DEVELOPMENT ON THE REMAINING EXTENT OF PORT ON COP OF PAFM STYR-KRANS, PAFM NO. 3, POFADDER, NAMAKWA LOCAL MUNICIPALITY, NAMAKWA DISTRICT MUNICIPALITY

Notice is hereby given that the intention is to develop a NEMA application and the public participation process in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) as amended (NEMA). Environmental Impact Assessment Regulations 2014, as well as other relevant legislation, in terms of the National Water Act, 1956 (Act No. 46 of 1956) (NWA). The proposed agricultural development includes activities listed in terms of the NEMA Regulations 2014. Consequently, it has been determined that a NEMA application should be submitted to the relevant authority.

The water use to be made is a public use, as defined in the NWA, and is subject to a separate independent assessment, which will be conducted by a competent authority.

Application for environmental assessment is to be submitted by the following dates:

2020-11-13 to 2020-11-14

2020-11-15 to 2020-11-16

Dear Interested and Affected Party

NEMA PUBLIC PARTICIPATION PROCESS

PROPOSED STYR-KRAAL AGRICULTURAL DEVELOPMENT ON THE REMAINING EXTENT OF PORTION 0 OF FARM STYR-KRAAL, FARM NO. 81, POFADDER, KHAI-MA LOCAL MUNICIPALITY, NAMAKWA DISTRICT MUNICIPALITY

Notice is hereby given of the intention to submit a NEMA application and the public participation process, in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended ("NEMA"), Environmental Impact Assessment Regulations 2014, as well as a Water Use License Application in terms of the National Water Act (Act 36 of 1998) (NWA). The proposed agricultural development includes activities listed in terms of the NEMA EIA Regulations 2014.

EnviroAfrica cc has been appointed by Schamboua Trust to undertake the NEMA application process for Environmental Authorisation.

Application for environmental authorization to undertake the following activities in terms of NEMA EIA Regulations 2014:

Government Notice R327 (Listing Notice 1): Activity No. 4, 5, 8, 9, 10, 11, 12, 13, 14, 19, 24, 26, 31, 45, and 56

Government Notice R325 (Listing Notice 2): Activity No. 13, 15, and 16

Government Notice R324 (Listing Notice 3): Activity No. 4, 12, 14, 18, 23

Application in terms of NWA: Sections 21 (a), (b), (c), (d) and (f).

**Please note that the listed activities above may change during the course of the NEMA Application process. Registered I&APs will be notified of any changes.*

Project Description & Location:

This application is for the proposed development of the Styerkraal Agricultural Development, and associated infrastructure, on Remaining Extent of Portion 0 of Farm Styer-Kraal, Farm No. 81, Pofadder, Khai-Ma Local Municipality, Namakwa District Municipality. In total, the entire development will be more than 200ha in extent. The site is located approximately 51km north of Pofadder at the following co-ordinates: 28°40'39.90"S; 19°31'2.93"E.

Public Participation:

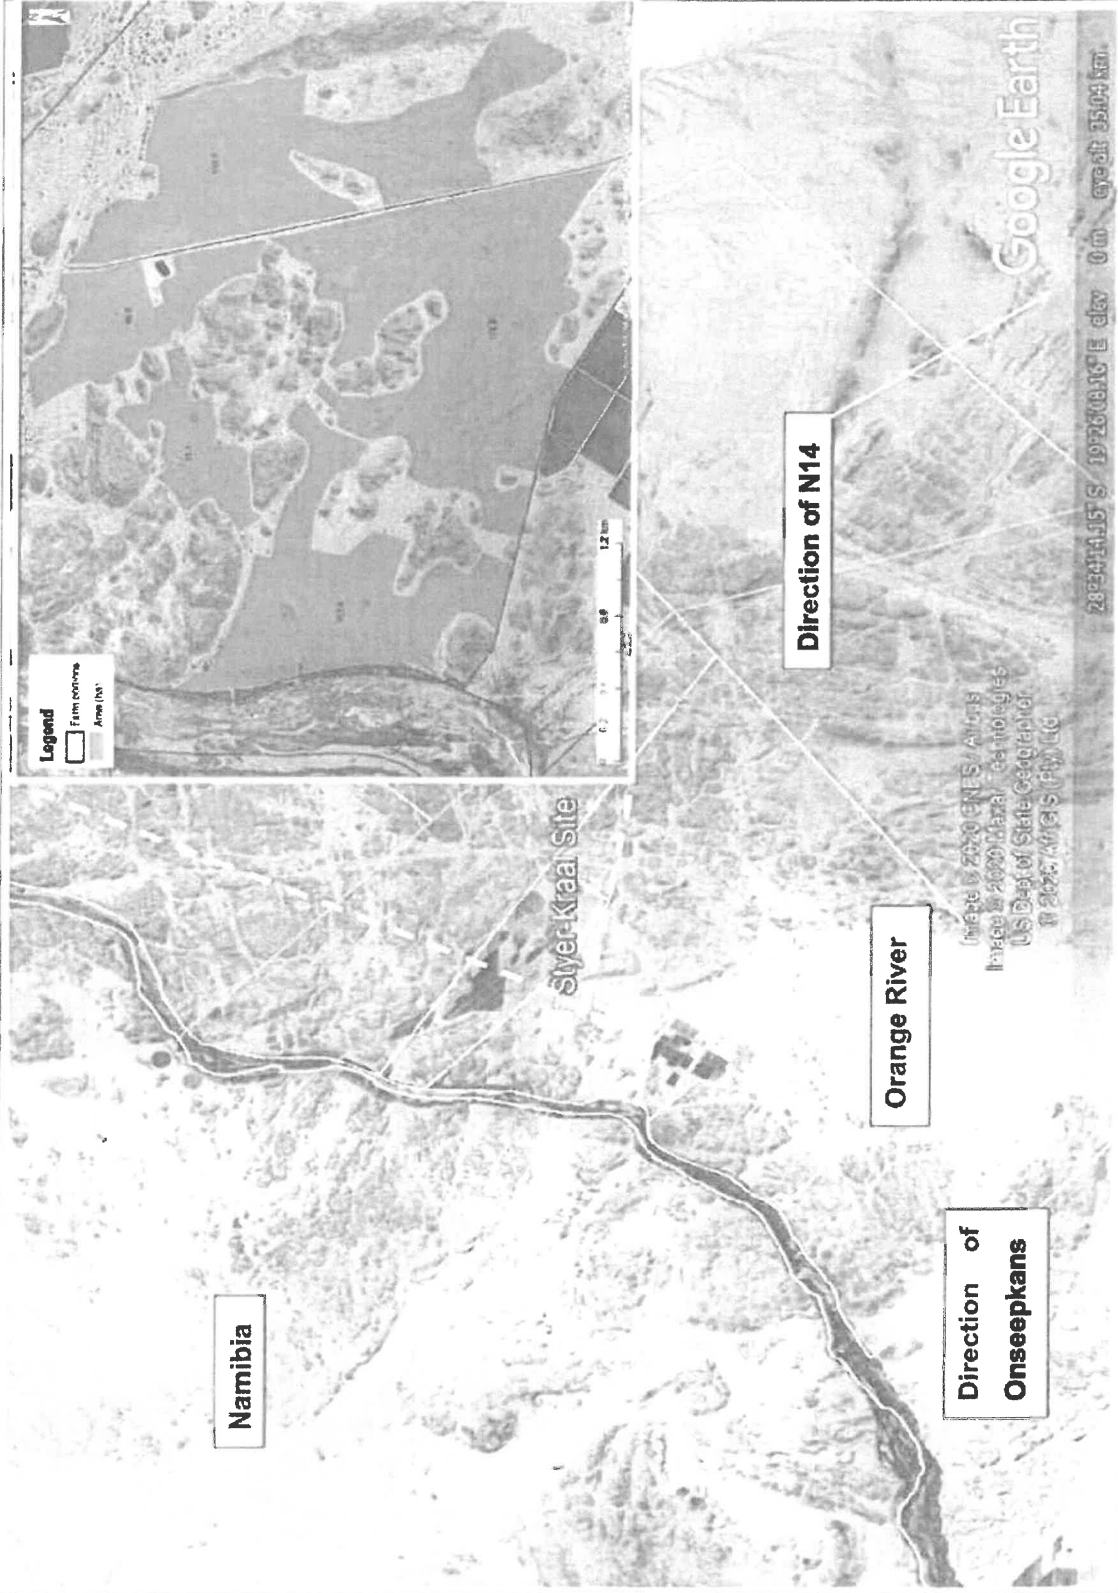

Interested and Affected Parties (I&APs) are hereby notified of the application and invited to register (in writing) and/or provide initial comments and identify any issues, concerns or opportunities relating to this project to the contact details provided below, in terms of the environmental aspects (NEMA Application) **on or before the 8th February 2021** and for water related issues (WULA Application) **on or before the 12th March 2021**. Please note that the advertisement was published in the Gemsbok on the 11th November 2020. In order to register or submit comment, I&APs should refer to the project name, and provide their name, address & contact details (*indicating your preferred method of notification*) and an indication of any direct business, financial, personal, or other interest which they have in the application. You are also requested to pass this information to any person you feel should be notified.

Please note that only Registered I&APs:

- will be sent future correspondence and be notified of the availability of reports and other written submissions made (or to be made) to the Department by the applicant, and be entitled to comment on these reports and submissions;
- will be notified of the outcome of the application, the reasons for the decision, and that an appeal may be lodged against a decision; and
- will be notified of the applicant's intention to appeal the decision, and where and for what period the appeal submission will be available for inspection.

Consultant: EnviroAfrica CC. P.O. Box 5367, Helderberg, 7135 / Fax: 086 512 0154 / Tel: 021 8511616 / E-mail: anthony@enviroafrica.co.za

Ria Pasella	<p>(1) We the residents of Onseepkans were never aware</p>	<p>(1) Good evening Ria,</p>	<p>EnviroAfrica CC</p>

	<p>or informed about the selling of the property in the first place. During the selling process no public participation were done in Onseepkans.</p> <p>We the residents of Onseepkans has been severely disadvantaged as some of our people were born there. They were not given the opportunity to participate in the process of buying the property.</p> <p>On the other hand, the advert for development has been placed up in Pofadder and not in Onseepkans. People from Pofadder will surely not lay any complaints because they do not have any interest in the property.</p> <p>The concerned people are those from Onseepkans a d not Pofadder.</p> <p>It is by chance that we saw the advert only today when we went for business in Pofadder.</p> <p>We would really like to be part of the process and not being left out.</p> <p>My contact details are as follows</p> <p>0632528303</p> <p>Thank you (25/01/2021)</p> <p>(2) Dear Anthony</p> <p>I trust you are well.</p> <p>I really would like to follow up on our complaint on abovementioned subject.</p> <p>You did not came back to me as</p>	<p>I hope all is well.</p> <p>Thank you for your feedback and response regarding the aforementioned project.</p> <p>Please note that we were not involved in the acquisition of the property. We are involved in the undertaking of the Environmental Impact Assessment (EIA) with regards to the proposed development (which includes the public participation process) in accordance with the National Environmental Management Act (NEMA).</p> <p>Attached, please find the initial notification letter outlining the proposed project. In line with the public participation process, we have published an advertisement in the local newspaper, placed posters around the site, and carried out mail drops. Details of the public participation will be included in the reports which are made available to registered Interested and Affected Parties (I&APs) and the Department of Environment: Nature Conservation (DENC) for comment.</p> <p>Please be advised that you have been registered as an Interested and Affected Party (I&AP). Please note that due to the nature of this project, this application will likely follow a Scoping and Environmental Impact Report (S&EIR) Process. You will be provided with the opportunity to provide comment on the Draft Scoping Report as well as the Draft Environmental Impact Report (Draft EIR), which will be made available to you in due course. Please let me know if</p>

	environmental authorisation of the above-mentioned project on the 03 December 2021. The application reference number NC/EIA/16/NAM/KHA/POF2/2021. Kindly quote the above-mentioned reference number in any future correspondence in respect of the application. Please draw the attention of the applicant to the fact that the activity may not commence prior to an environmental authorisation being granted by the Department.		

	Kindly note the responsible officer for this project is Mr. A. Nyakaza and can be contacted at this number 027 718 8800/ 060 991 4817. (07/12/2021)		
<p>Aviwe Nyakaza (Department of Agriculture, Environmental Affairs, Rural Development and Land Reform)</p>	<p>3. Contents of Scoping Report</p> <p>3.1 The EAP is reminded to re-look at dates of the proposed Plan of Study and tasks to be undertaken</p> <p>4.1 The Department requests a detailed description of the relevant and specific associated activities (Listed activities) and the reason for inclusion and relevance of the listed activities</p> <p>5.1 List all legislation, policies and or Guidelines of any sphere of government that are applicable to the application as contemplated in the EIA Regulations if applicable.</p> <p>6.1 The specialist studies must comply with Appendix 6 of the EIA Regulations of 2014</p> <p>6.2 The specialist studies are to be further investigated</p> <p>7.1 Page 30 of 43 in the Scoping Report states that “due to the scale of the proposed development, services for the proposed development will be investigated”. The Department looks forward to the outcome of the said determination. All services which include water, wastewater disposal, roads,</p>	<p>The Plan of Study has been revised and is attached to the Draft EIR as Appendix 8.1</p> <p>The relevance to the application of each of the included listed activities has been provided.</p> <p>This has been done.</p> <p>The specialists have been requested to ensure that the reports fully comply with Appendix 6 of the EIA Regulations of 2014</p> <p>Noted</p> <p>Please see the letter attached as Appendix 4.4 of the Draft EIR</p>	

	<p>stormwater, solid waste disposal and electricity must be investigated.</p> <p>7.2 Water services. The applicant is advised to conduct a legal validation to identify all the water use activities associated with this project as this will require relevant authorisation by the relevant authority (DWS). Ensure that the additional required water supply capacity is catered for and the development will contribute to long term water shortages,</p> <p>7.3 The next phase of the assessment (EIAR) has to provide a full indication of how the existing or current services versus the new proposed infrastructure services are to be incorporated and how this will be facilitated</p> <p>7.4 Confirmation or provision of services must be demonstrated and any upgrades that may required to service the development.</p> <p>7.5 Ensure agreements with service providers n how they will assure such services are provided in the required amounts</p> <p>8. The applicant is reminded to include the following details in the subsequent environmental process:</p> <p>8.1 detailed breakdown of the water requirements for all phases of this development/ project</p>	<p>Noted</p> <p>Please see the letter attached hereto as Appendix 4.4 of the Draft EIR</p> <p>Please see the letter attached hereto as Appendix 4.4 of the Draft EIR</p> <p>Please see the letter attached hereto as Appendix 4.4 of the Draft EIR</p> <p>Please see the letter attached hereto as Appendix 4.4 of the Draft EIR</p> <p>Please see the letter attached hereto as Appendix 4.4 of the Draft EIR</p>

	<p>8.2 The design and operational capacities of the said water storage dam</p> <p>(14/06/2022)</p>	Please see the letter attached hereto as Appendix 4.4 of the Draft EIR	
Peter Cloete (Department of Agriculture, Environmental Affairs, Rural Development and Land Reform: Research and Development Support)	<p>(1) The Farm Styr-Kraal is covered by sand, low shrubby vegetation (refer to the grey and coloured areas on map 2 and compare those with the areal view in map 3). This does however not mean that there is NO vegetation, it is just sparsely distributed. There are also 2 ephemeral rivers bordering the farm on the eastern and western borders. The vegetation is more concentrated towards the 2 rivers and the Orange River.</p> <p>(2) The farm is covered by three (3) vegetation types ie. Bushmanland Arid Grassland (Least Concern; Hardly Protected), Lower Gariep Broken Veld (Least Concern, poorly protected) and the endangered Lower Gariep Alluvial Vegetation of which some already been disturbed through the development of vineyards located close to the river</p> <p>(3) The entire property, aside from the areas already disturbed were earmarked as per CAB2 areas, the Lower Gariep Alluvial Vegetation Type is a CBA 1 area (as per Northern Cape Critical Biodiversity Map)</p> <p>(4) During the site visit it was evident that a great number of Camel thorn trees (<i>Vachellia erioloba</i>) as well as the great number of stink bush or false shepherd tress (<i>Boschia foetida</i>) encountered on the site. Ebony trees (<i>Euclea pseudebenus</i>) and several Shepherd Trees (<i>Boschia albitrunca</i>) were located within the</p>	<p>Noted</p> <p>Noted</p> <p>Noted</p> <p>A buffer area of at least 10m will be maintained around the camel thorn trees on the proposed site. This will be added to the recommendations that are included in the Draft EIR for the protection of vegetation for dealing with protected plant species</p>	

	<p>development footprint. These trees species are protected under the Northern Cape Nature Conservation Act (No.9 of 2009). They are keystone species for ecosystem services. A buffer of 10m are perceived as a suitable measure for the Camel thorn trees.</p> <p>(5) It must be noted that the vegetation of the Lower Gariep Alluvial Vegetation Type, is considered to be a Critically Endangered vegetation type. However, the site has been transformed by agricultural activities and there is no significant natural vegetation remaining.</p> <p>(6) A substantial buffer (>100m) must be allowed for between the agriculture and the Orange River. Berms should also be constructed on the eastern edge of the site to prevent runoff from the compost site flowing directly to the stream.</p> <p>(7) Loss of agricultural land for the proposed activities must not lead to expansion of cultivation into sensitive or natural areas elsewhere.</p> <p>(8) The landowner must be reminded that in terms of the Conservation of Agricultural Resources Act, 1983 (Act No. 43 of 1983) (CARA), landowners must prevent the spread of alien invasive plants on the property. The level of alien infestation is therefore not be seen as reducing the sensitivity of the site, nor is the subsequent removal of alien vegetation from a property regard as a mitigation measure due to this being a legal requirement. Infestation by alien plants does not necessarily mean</p>	<p>Noted</p> <p>The request to maintain a buffer area wider than 100m between the proposed development and the Orange River would make a large portion of the proposed site unavailable for agricultural production, thereby casting serious doubt on the economic feasibility of the proposed development. This would be inconsistent with the NEMA principle that requires the needs of people to placed first and foremost.</p> <p>Noted</p> <p>Noted</p>	
--	--	--	--

	<p>that an area is not important for biodiversity as some vegetation types are particular prone to invasive alien infestation, but may recover when cleared of alien vegetation. The EAP needs to take cognisance of this fact in all statements regarding mitigation of the NO- Go Alternative impact. The landowner is legally required to remove all alien plants from the farms and therefore the No -Go Alternative has to take into account.</p> <p>□ In addition to CARA, in terms of the Alien Invasive Species Regulations. NEM:BA, 2014, specific alien plant species (e.g. <i>Prosopis glandulosa</i>) are either prohibited or listed as a restricted activity concerning their spread. All alien trees present on the properties should be removed as they are a propagate source for further spread of invasive alien plants. It should also however be noted that although brush cutting vegetation is permissible, the frequency of such activities should not exceed thresholds that would result in the succession of the vegetation unit.</p> <p>The proponent must provide suitable measures for the loss of the <i>Boschia albitruncas</i>. Considering the ecological impacts and the loss of a ecological keystone specie (transplanting of the specie is not viable), the proponent must provide counterbalance measures whether in a form offset/compensation. This matter should be robustly assessed and discussed with DFFE and DEARL in order to make an informed decision as well for permitting requirements.</p> <p>Efforts must be made to relocate reptiles, ground dwelling animals and bird nests out of the construction footprint to areas that are not affected by the development to minimise</p>	<p>Please see the recommendations made in the Botanical Impact Assessment that is attached hereto as Appendix 5.1</p> <p>This will be included in the recommendations to be implemented by the applicant that a search and rescue operation and subsequent relocation operation to suitable areas</p>

	<p>mortality during the construction phase.</p> <p>The pipeline trench should be dug by hand to avoid any unnecessary and destruction of vegetation from heavy machinery.</p> <p><input type="checkbox"/> The working buffer on either side of the pipeline can be reduced from the proposed 5m to 1m, thereby reducing the footprint from approximately 3 500 m2 to 750 m2 along the 350m length of pipeline.</p> <p>No fires are allowed within the Alluvial Vegetation (e.g <i>Oewerbos</i>). This vegetation type is a fire - driven ecosystem. All vegetation that will be removed must be transported offsite for disposal.</p>	<p>outside of the development footprint be conducted for reptiles, ground dwelling animals and bird nests etc that may exist on the proposed site.</p> <p>This will be included in the recommendations that the applicant must implement</p> <p>This will be included in the recommendations that the applicant must implement</p> <p>This will be included in the recommendations that the applicant must implement</p>
