C: Provide a brief description of the proposed project:

Cederberg Farming Trawal (Pty) Ltd proposes to establish a water storage dam of approximately 92 000m³ on Portion 101 and Portion 168 of the Farm Melkboom No. 384, Vanrhynsdorp. The proposed dam will be supplied with water from the Bulshoek Dam Canal in terms of an existing lawful water use allocation that cannot be fully utilised at present as a result of a shortage of water storage capacity in the existing on-site farm dams. The storage of water in the proposed dam will bring the proponent closer to fully utilising the existing lawful water use allocated to the proponent and make the proponent's farming operations less vulnerable to droughts.
